Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The preamble of claim 1 recites "The method and apparatus". This statement is indefinite because it is not clear whether a method of play a game is being claimed, or whether a game apparatus is being claimed. The claim must be corrected. Either a method of playing a game, or a game apparatus must be claimed, not both.

Claim 1, paragraph f and claim 2 are divided into several sentences. This is improper. Claims must be in single sentence format only.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Larson in view of Begley et al.

The patent to Larson discloses a board game apparatus comprising a plurality of adjacent parallel playing paths numbered "1"- "15". The playing paths are divided into a

Art Unit: 3712

plurality of spaces. The game further comprises a six-sided die or a spinner, Fig. 2, game pieces 14 representing each player. Each player is assigned a plurality of paths "1"- "15". Opposing playing pieces start at opposite ends of the playing paths, and the playing pieces move toward the opponent according to the roll of the die. Players score points when their playing pieces reach spaces 15 and 16, column 4, lines 1-28. The player having most points is the winner, column 4, lines 61-68.

The patent to Begley et al. teaches that it is known in the board game art where players score points, to provide a score path 44 with score markers. In view of such teaching, it would have been obvious to incorporate a score path with score markers to Larson's game. This modification to Larson's game would have made it more convenient to keep track of each player's score.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Cohen and Creel disclose board games having a plurality of playing paths and a plurality of playing pieces. Chance device moves the playing pieces along the playing paths.
